

FLIGHT LOOKBOOK

Viewrail

Art in Every Step

Viewrail FLIGHT stairs bring modern artistry and bold design to your space, each in their own unique way. Uncompromised engineering means your stairs are built to last, while remaining timeless pieces of structural art in your home.

Floating Stairs

THE UNCAGED MIND
KARIM RIZOVIC

FLIGHT **Mono**

The original Viewrail floating stair, FLIGHT Mono was created to be sculptural, structural, and artistic, all at once. Make a statement while letting the stair's surroundings soar.

Endurance Rod
Cable

Tread Spacing

Open Riser

FLIGHT **Stack**

A marvel of modern design, FLIGHT Stack erases the stringers from view entirely. It elevates a closed-riser design, while offering something boldly unique, distinctly modern, and artistically awe-inspiring.

Glass

Tread Spacing
Closed Riser

FLIGHT **Cantilever**

Pure minimalism meets gravity-defying engineering. FLIGHT Cantilever is a magical experience as much as it is an ode to modern design. Proprietary tech means treads are fully supported, while wall-mounted brackets are entirely hidden.

Glass

Tread Spacing
Open Riser

FLIGHT **Curve**

Inspired by timeless art and organic architecture, FLIGHT Curve is a conversation between elements, between itself and the space it floats in, and between human living and high-design.

Tread Spacing

Closed Riser

FLIGHT **Spiral**

As this flight takes your eyes skyward, it invites you to take in the carefully-crafted helical treads, the elegant curve of the rod infill, and premium materials that complement each other perfectly.

Open Riser

RISE **Duo**

Modern treads, traditional stringers, and a staircase that lets in the light, RISE Duo is meant to take the traditional staircase into the modern era while staying true to its roots.

CABLE & GLASS RAILING

Seamlessly Integrated

Made for FLIGHT

High-end stairs meet their match with Viewrail cable, rod, and glass railings, seamlessly integrated with FLIGHT stairs.

The options are endless: a glass railing that appears to slice through the treads, sleek rod railing with posts and handrail that match your stairs, or standoff pins for glass railing integrated directly into the treads.

With dozens of styles, finishes, handrail and mounting options, choose FLIGHT and Viewrail railing together for the perfect combination to complement your unique space.

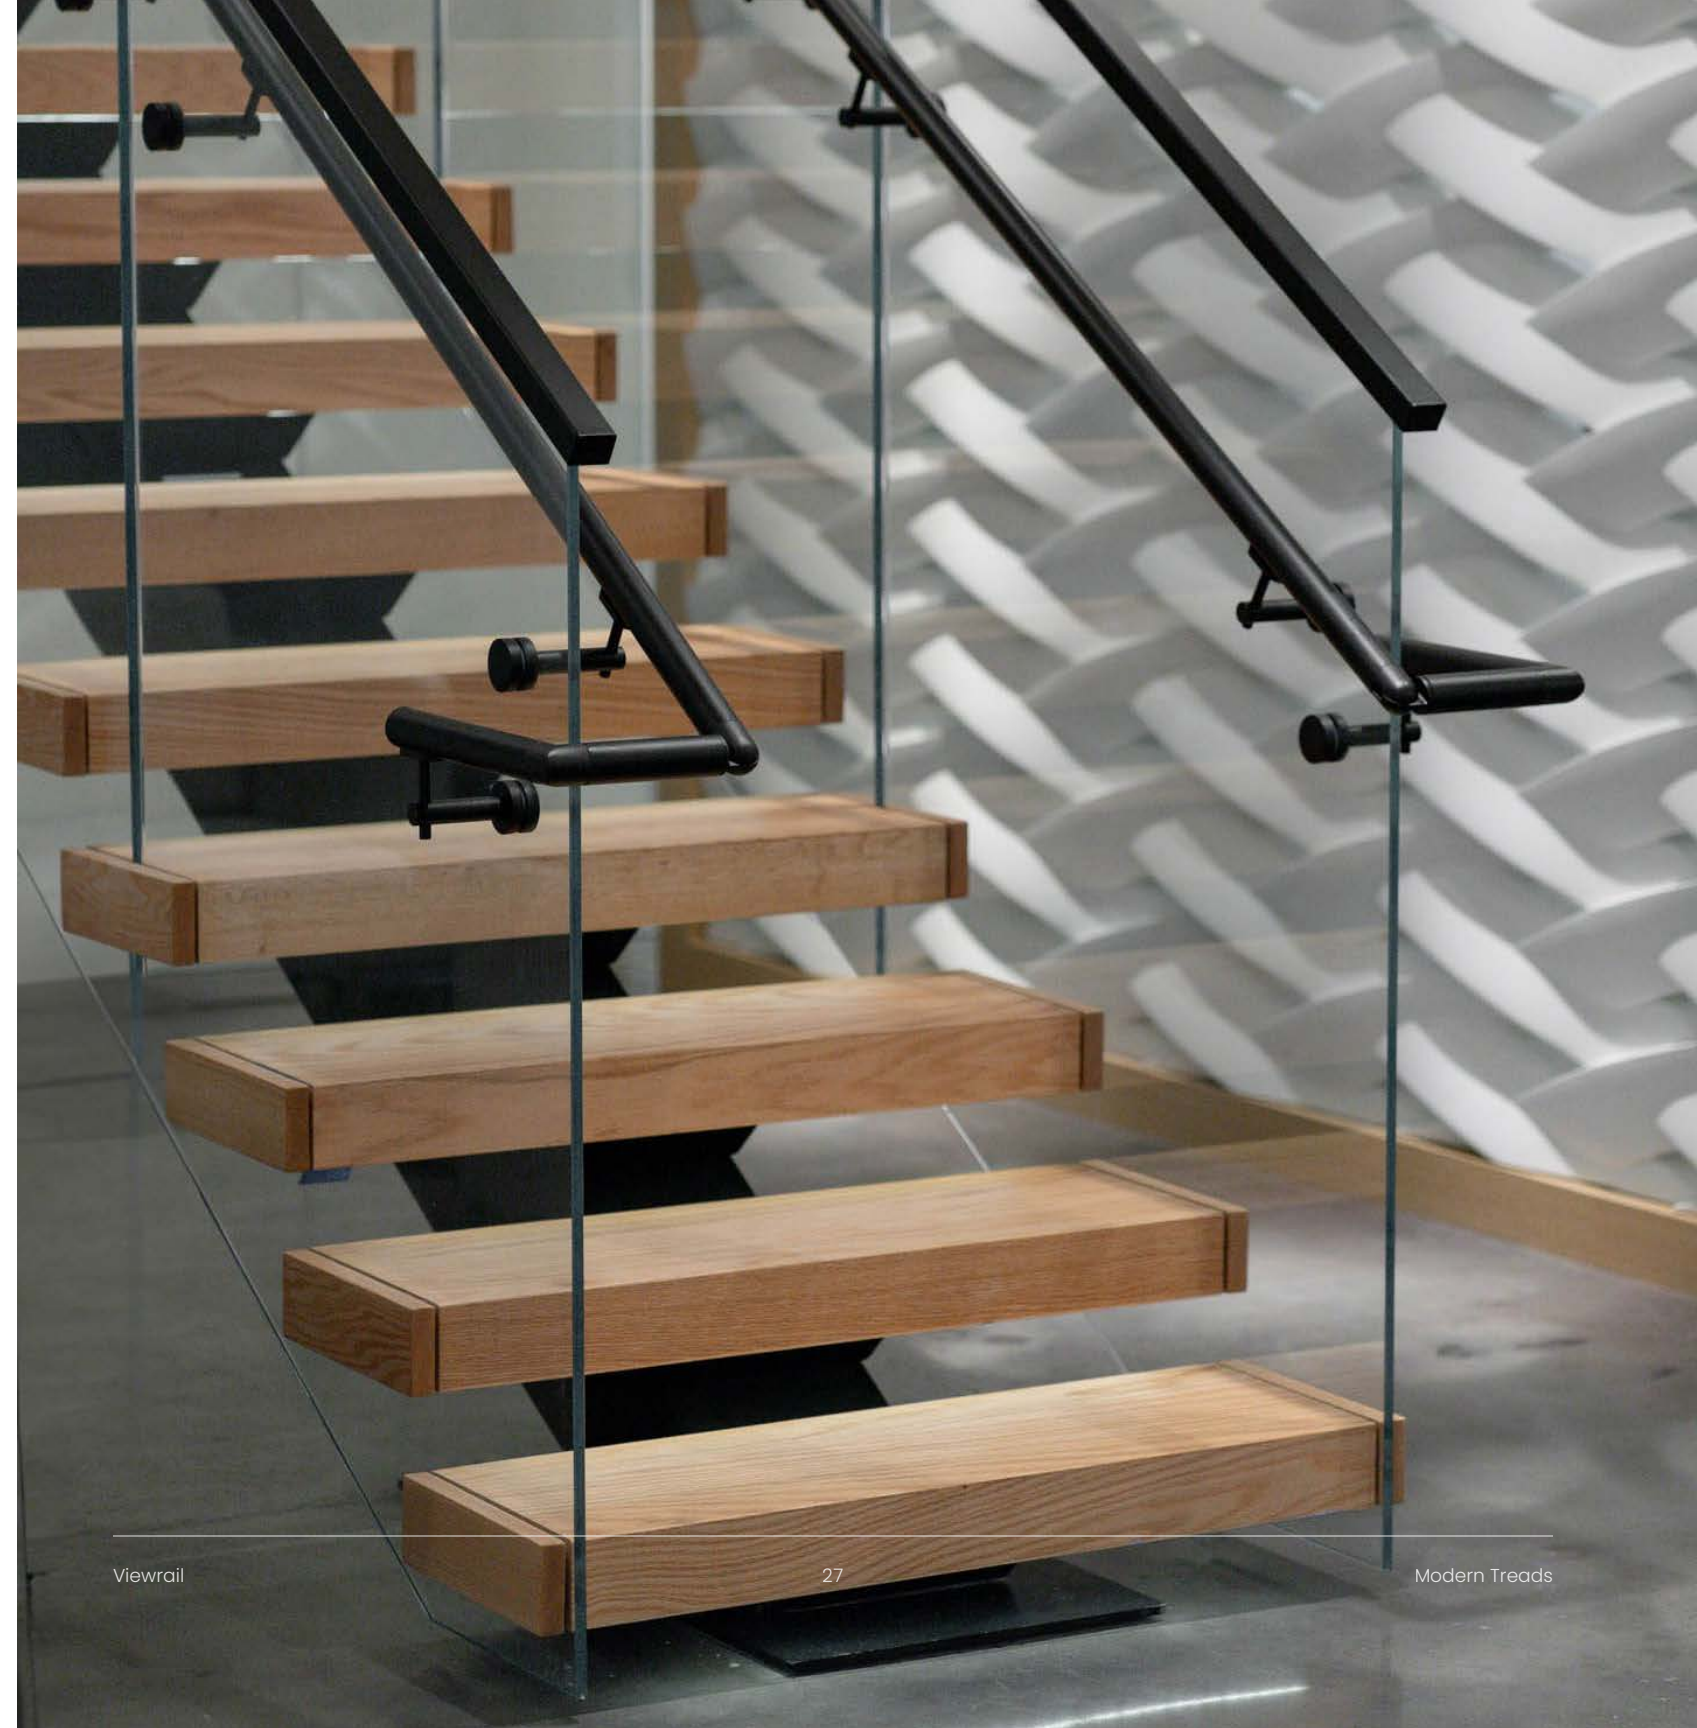

MODERN TREADS

A Step Above.

You know a Viewrail tread when you see one. Distinctive and modern, they bring natural wood tones and high-grade finishes that elevate any space.

Each tread is meticulously crafted in our U.S. facilities by expert artisans who take pride in every detail. Using advanced machinery, high-quality lumber, and furniture-grade finishes, our wood stair parts are built to stand the test of time.

We make nearly every component of our stair and railing systems in house, so you can have more control over the style, materials, finishes, price, and timeline of your project.

Manufacturing

- 400,000+ square feet of production space
- State-of-the-art, people-centered automation
- Sustainably-run, aiming to be plastic-free

Wood

Supply chain ownership and people-centered automation empower us to make better wood products in a fraction of the time.

Glass

Always in style, never outsourced. From panels to pins, we make gorgeous glass that's built to last.

Metal

We do all the machining, welding, and drilling, so you can install your system quickly and easily.

In-House Engineering

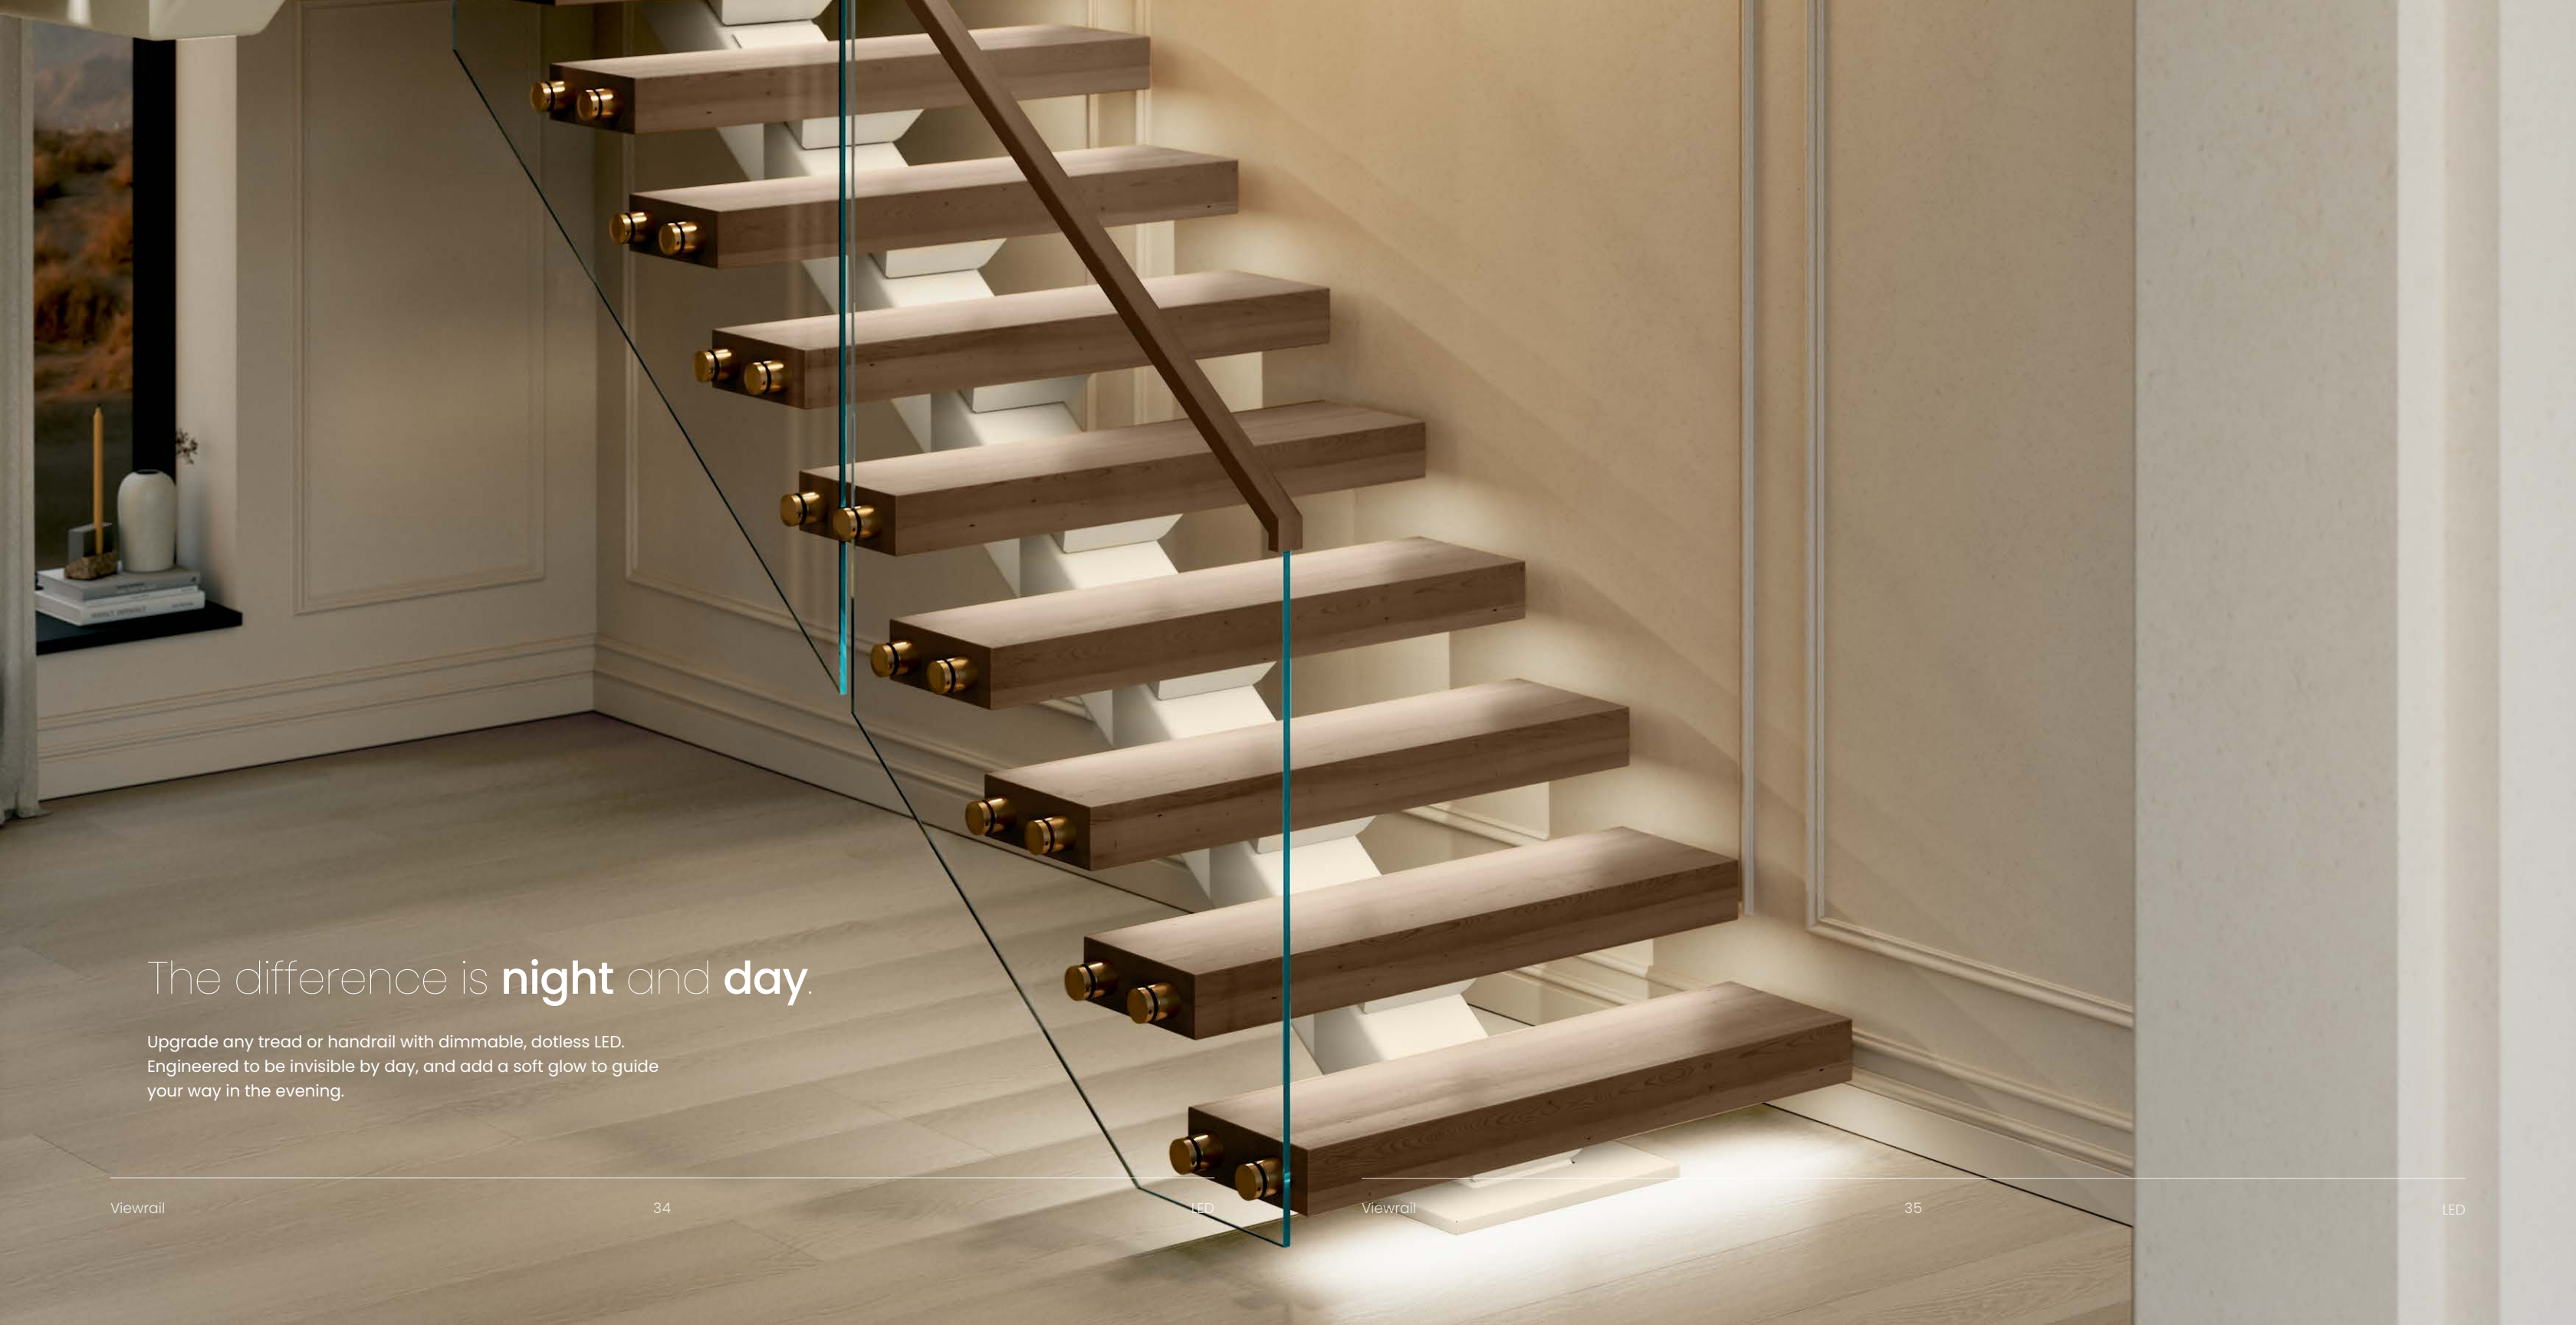

Stairs and railings aren't just stylish — they're structural. It's crucial to get it right when it comes to the engineering of your system.

At Viewrail, Project Managers oversee each project and coordinate with our engineering team, ensuring your project is on track and on vision, down to every last detail.

Viewrail Certified Installation

The easiest installation? Have an expert do it.

Our nationwide network of local, Certified Installers go through extensive on-site training to become stair and railing installation experts. Forget lifting a finger. Get fast, safe, hassle-free installation, with an enhanced warranty coverage to back our certification.

The difference is **night** and **day**.

Upgrade any tread or handrail with dimmable, dotless LED.
Engineered to be invisible by day, and add a soft glow to guide
your way in the evening.

A modern interior space featuring a wooden staircase with a glass railing. The staircase is made of dark wood and has a glass railing supported by a wooden handrail. The background wall is light-colored with a textured, stone-like pattern. A framed abstract painting is visible on the left wall. In the foreground, a portion of a tan leather armchair is visible.
